Daniels Says Richmond Is O. K.

Citizens Turn Out To Honor Head Of Navy, Who Was Late---Only 1 Day For Wilson

WILSON HERE SEPTEMBER 18 ONLY

Attack on U. S. Fliers Was By Mex. Soldiers—Peace Treaty Knockers Grilled—S. F. Sugar Seized—Santa Clara Bank Robbed—Belgian King Coming to S. F.

President Wilson's sojourn in San Francisco will be short and snappy.

Gavin McNab received a telegram from the President's secretary, J. P. Tumulty, who stated that it would be necessary for Wilson to cut his stay here to one day, arriving in San Francisco on September 15, and departing at 10 o'clock that night.

The President's decision to review the fleet in Puget Sound has necessitated his remaining in Seattle one day longer than his itinerary originally called for.

Tumulty's wire said: He would gladly add a day to his trip but for the imperative necessity of his reaching Washington on September 30, as planned, in order to meet the king and queen of Belgium. He will be glad to make one address Thursday morning in Oakland or Berkeley and a second address at night in San Francisco.

SEN. KNOX GETS WHAT IS COMING

WASHINGTON, Sept. 3.—Declaring the real purpose of the Foreign Relations Committee majority in amending the peace treaty was to kill it entirely and that such a course would be suicidal to the United States, Senator Hitchcock of Nebraska, Democratic leader, asserted in a Senate speech today that the majority of the senators never would accept any of the committee changes.

The treaty opponents, he said, "crawl on the ground with a microscope searching for pitfalls" in the League of Nations and overlook substantial benefits which the treaty would bring the nation. (Continued on Page 3).

MEXICAN SOLDIERS ARE DECLARED WRONG

LAREDO, Tex., Sept. 3.—Mexican federal soldiers made the attack yesterday upon an American army airplane fired upon near here while on border patrol duty, but the machine was within Mexican territory at the time, according to Mexican Consul Garcia of Laredo.

The firing was "unwarranted," the consul said and was done in the absence of the detachment's commander, and the case has been reported to the superior authorities for instructions in regard to punishment of those guilty.

FOUL PLAY SUSPECTED IN SUDDEN DEATH

MARTINEZ, Sept. 3.—Deputy Sheriff Dike Joslin, Fred Ware and H. L. Brady left early yesterday for Antioch to make further investigations into the death of Leo Carillo of that place who was found dead in his room there on September 1.

According to those who were with Carillo on Sunday night he was enjoying the best of health at that time and was intending to open the saloon of Al. Ross, an intimate friend of his, on Monday morning. Later in the evening Carillo complained of feeling ill and told some of his friends that he did not believe he would open the Ross place on Monday morning.

Before morning people occupying the same building that Carillo was in heard him groaning in his room and rushed to his assistance to find him writhing in a convulsion. Medical assistance was summoned at once but Carillo failed to yield to an antidote for poison. After his death the stomach was sent to laboratories in the bay cities to be examined. Further developments in the case are expected tomorrow.

\$10,000 STOLEN FROM SANTA CLARA

SAN JOSE, Sept. 3.—Three masked men entered the Bank of Santa Clara during the noon hour, forced Cashier George Warburton to turn over approximately \$10,000 in cash and escaped.

OFFICERS NAB NOTORIOUS HOP FIEND

Disposer of Young Girls and Young Men Lands in the County Jail, Caught With Goods—Officers Say He Got the Dope From San Francisco Drug Ring—Drug Found.

"Iron Foot" Ross, according to the authorities, one of the most notorious smugglers of narcotics in the United States, was arrested in Antioch yesterday by deputies from the sheriff's office and representatives of the State Phosphate Bureau after an investigation of his movements.

According to Officer Jones, Ross has been arrested several times before in different parts of the United States and tried. The last time he was taken into custody by Jones was in Stockton during 1916. The officers have been on his trail in Antioch for some time but it was not until Wednesday morning that he was finally tracked to his den over a saloon which he owned near the Southern Pacific Depot in Antioch and arrested.

Jones stated that Ross and his wife were asleep at the time the arrest was made and following a search of his apartment the narcotics valued at over \$100 were found, together with a large number of hypodermic needles and one syringe.

It is declared by the officers that Ross has been dispensing drugs to residents of Antioch for the past four or five years, during his residence in Antioch and as a result of his operations, it is stated, even young girls of some of the best families in Antioch have fallen victim to the frightful habit.

Ross is said to have owned a saloon in the center of Antioch and also an apartment house and rooming house. It is stated by Jones that Ross has been securing the drugs from a gang of drug smugglers in San Francisco.

MICKIE SAYS

"TH' BOSS SAYS IF HE WUZ T' QUIT NEWSPAPERIN' HE GO INTO BUSINESS. TH' FIRST THING HE WOULD DO 'D BE T' MAKE HIMSELF SOLID WITH TH' LOCAL EDITOR BY SLIPPING HIM A CONTRACT FOR A YEAR'S ADVERTISING. 'GIT TH' EDITOR AN' TH' BANKER WITH YOU, SAYS TH' BOSS. AND TH' REST IS EASY!"

New Ferry Rate

CO. TAX RATE SET AT \$2.10 PER \$100

This Is a 15c Raise Over Last Year But There Will Be No Levy of 25c as Special Road Tax—With Local Tax Richmond Levy Will Be About \$4 on Low Valuation

The tax rate for the fiscal year 1919-20 was set at 2.10 by the board of supervisors at their regular meeting held on Tuesday. This is a raise over the rate of last year of 15 cents and provides for a 2-cent increase in the levy for the schools of the county which will furnish the necessary funds to in-

crease the salary of the school teachers is of the greatest importance, according to Superintendent of School W. H. Hanlon. Many of the surrounding counties are increasing the pay of the teachers and according to Hanlon Contra Costa is to maintain its present high standard school system the salaries of the teachers must be increased.

One half cent was also included in the rate by the board for advertising purposes. This will raise about \$2800 and it is understood that the board contemplates using some of this money to maintain an exhibit at the big Contra Costa Exposition to be given here during the early part of October.

The assessed valuation for the county has increased six million dollars over that of last year, the assessment rolls for 1919 showing \$62,596,550 while last year the amount was \$56,137,785. With a tax rate of \$2.10 for this year the amount raised will be \$1,314,527.55.

The above levy is the outside rate, and Richmond is not hit that hard, but our local levy is quite liable to run the whole tax, county and city, up to or a trifle beyond \$4. But the valuations are very low, which is one comfort. The News had a conflagration with Supervisor Zeb Knott last night, and he said it was his understanding that the special road tax of 25c would not be made, as the bonds voted made it unnecessary.

KING AND QUEEN OF BELGIUM COMING

WASHINGTON, Sept. 3.—Soon after their arrival late this month in Washington, King Albert and Queen Elizabeth of Belgium will leave on a trip to San Francisco, this being arranged in a tentative itinerary prepared for the royal couple.

They will come directly to Washington and will remain at the White House for a period of three days as the guests of President and Mrs. Wilson.

The king and queen then will return to New York, where they will be tendered a public reception after which they will leave on the journey to the Pacific Coast.

DANIELS SPEAKS OF PACIFIC COAST NEEDS

That he was alive to the needs of greater shore establishments for the navy on the west coast has been several times indicated by Secretary Daniels, but never more clearly than in his answer to a direct question put to him since ships aggregating a large extent will make necessary a large extension of naval plants, naval bases and yards on this coast.

"Before making recommendations to Congress, I shall make a study of the various new sites and the necessary enlargements of old bases that I may make recommendations to Congress based on personal examination and study."

"The supply, repair and care of a great fleet like this calls for large shore establishments."

"Admiral Mahan said that no country ever had a great merchant marine without a great navy. Everything that will be necessary to provide for a great navy will be equally valuable to the development of a merchant marine."

"This is the great lesson of the war. Our country will be blind to its best interests if it lacks state-manship that will provide for a merchant marine so as to enable us to carry much of our own products in our own bottoms."

"The tendency will be to build larger merchant and naval ships. This is particularly true on the Pacific, where the nation's commerce will have long hauls."

Mrs. Lucille Beck has started divorce proceedings against Sam Beck on grounds of cruelty.

DANIELS PAYS RICHMOND PRAISE

Said This City Most Beautiful Spot Seen on Entire Trip—Will Send Engineer and Admiral Here to Further Inspect Harbors and Naval Academy Site.

Secretary Daniels, head of the United States Navy, was due in Richmond last evening at 4:45, but he did not arrive until about 6:15. This was because of unavoidable delays, as he has been going like a steam engine for some time past and so was a bit late in getting started yesterday. At the municipal tunnel portal, near the city hall, he was met by a committee of Richmond's waterfront and industries was made.

Mayor Long, H. A. Johnson, Fred Beck and John Nichol met the Secretary in San Francisco yesterday morning and stayed with him all day, visiting on the government launch the Alameda site and other places of interest, then a luncheon at the Hotel Oakland.

Next a drive over the Skyline boulevard, then the big meeting at the Greek Theatre, Berkeley, and from thence to and around Richmond, which latter was prolonged until the setting sun gleamed red over the western hills.

The Secretary was very much pleased with what he saw of Richmond and did not hesitate to say so. He said this city was the most beautifully located of any he had visited on his recent trip of many thousands of miles, and that he would send an engineer and an admiral here soon to go into all our waterfront and harbor details in full, including the Nichol naval academy site.

Mr. Daniels and party were most gracious, pointing out to the reception committee of their own accord many vital points from their viewpoint. The Secretary said our people had every reason to be most (Continued on Page 4.)

A Conati Pleads Guilty In Court

Angelo Conati, who was charged with assault with a deadly weapon in connection with a fight in Stege several months ago, pleaded guilty to the charge in Judge Latimer's Court yesterday. He will appear before the court on Friday afternoon of this week at one o'clock, at which time he will be sentenced.

Local Woman Too Much Married

Mary Fisher Johnson Smith, a daughter of Mrs. C. Fisher of Richmond, 20, was committed to St. Katherine's Home for Delinquent Girls for six months by Superior Judge Lin Church of Oakland, on a charge of bigamy.

Mary has been in charge of the court since 1914, when she was declared a wayward girl, and committed to the California Training Home in Alameda. She eloped with a soldier and deserted her baby.

Boy Scouts Day At Fair Planned

MARTINEZ, Sept. 3.—Among the special days at the coming Contra Costa exposition will be a Boy Scout day, at which the members of the two troops of the Martinez Boy Scouts will compete with other troops of the county in drilling, signal work and other scout activities.

Arrangements for this day were perfected at the meeting of the local troops last night when the boys pledged their support to make the fair a success.

The boys will assist in the sale of tickets and each scout selling ten season tickets will be given a free ticket good for every day of the fair. The scout selling the greatest number of tickets will be awarded a trophy in the form of a cup, pennant or some souvenir of this kind. Work on the sale of tickets will also be counted in the credit rating as to standing in the troop.

Little Boy Run Away From School

Because he does not want to go to school, Joe Thalman, 14, son of A. J. Thalman, of the Seventh Street Garage, ran away from home last Friday night, taking with him Grant Oliver, 14, son of D. E. Oliver, 427 Ninth street. They reached Fremont before they were located by the Richmond police, and the mothers of both of them went to get them Sunday evening.

A FINANCIAL BULWARK

The past several years have clearly demonstrated the stability and soundness of American finance.

This Institution is a member of the Federal Reserve System.

As a result not only are the funds of our depositors safeguarded in the most approved way, but their interests are served and conserved by the sound policies that have furthered the development and expansion of America's national banking system.

Every Home Is Different

Each bungalow being erected in Tapscott Park (Cutting Boulevard and San Pablo Avenue) is different in architecture and arrangement. Each is individual and each is new and contains the very latest ideas in 4 and 5-room cement bungalows.

We expect to build 100 bungalows in the next 6 months. That means economy in building and a saving in cost to you. It also means that you can—if those being built are not exactly what you want—have a bungalow.

BUILT TO YOUR ORDER.

This is a most unusual opportunity. You can have your plans drawn without paying the usual architect's fees, select your lot in any part of Tapscott Park, secure the economy in wholesale buying of building materials, and save in labor cost as none of the workmen are held up on your home because some one job has not been completed.

You have all these advantages in buying your home for a SMALL PAYMENT DOWN BALANCE ON RENT TERMS.

All we ask is that you see the bungalows being erected; compare the prices with what it would cost to build; and the terms we offer with what others are asking. When you have done this you will admit that we are making the best building offer in the entire bay region.

PROFITEERING

This is a new word and a new problem which has sprung up as an aftermath of the war to confront all the people, not only of this country, but of all the world, and yet it is as old as history or time. Men have been at the profiteering game ever since greed and selfishness was a part of human nature, and that has always been.

The money-changers whom Christ lashed from the Temple were profiteers. Judas betrayed the Master for thirty pieces of silver—nowadays he would have demanded a million, endowed some libraries, posed as a philanthropist and lived happily ever after. Esau, who sold his birthright for a mess of pottage in these days would have put the mush up into cartons with fancy lettering and pictures on them, advertised it as not only fattening but an erradicator for stains upon the character, and retired with more millions than farmers have hay. Those old guys were pikers, but their system was the same old brand of profiteering the Government is investigating today.

When the good Christian Pilgrim Fathers traded the Indians whisky and glass beads for millions of acres of New England land, that was profiteering that even Morgan, Rockefeller & Kuhn, Loeb & Co. can't beat. In trading two-bits worth of calico to the Indians further west and north for a \$500 hide, John Jacob Astor, whose heirs own about half of Manhattan Island, set an example of profiteering which emblazoned his name in fame via the Waldorf-Astoria hashery where a meal today costs as much as old John got for the fur.

Senator Alger and his "company," who sold meat to the Government to go to the Philippines so patrid that it ate its way through the tin and killed more soldiers than Filipino bullets did, were some profiteers, also, and, also again, ought to have been hung about a mile higher than the sixty cubits attained by Mr. Haman.

The only permanent remedy we can think of is to teach in our schools the principles of honor, honesty and manhood to such an extent that our children will grow up to have less of the greed and selfishness than has characterized mankind from today right on back along the dusty road of history.

the time and go around hating the world and everybody in it? Better eat too much candy than too much poison. It is not necessary to be everlastingly grinning like a tooth wash advertisement or otherwise acting like a blithering idiot to feel and have and radiate a fair and reasonable amount of optimism, and it is certainly far better to be polite, courteous, kind and pleasant than be sad and gloomy like an undertaker or a chronic dyspeptic. Too much sunshine may tan the face and hands and freckle the nose, but it is preferable to fog, icicles and chillblains.

Optimism and a cheerful disposition, mixed with good old-fashioned horse sense, is good for the health, good for business and helps everybody and everything.

Pessimism, on the other hand, knocks out the liver, congeals the blood, sours the milk of human kindness in the breast and overcasts life's sky with depressing clouds.

THINKOGRAPHS

It's best to clip gay Polly's wings.
And take this little hint:
Don't be a fool and do the things
That won't look well in print.

A life insurance man has been talking to us lately and we are in doubt now whether we will live until next month or only a few minutes.

Fellows who say they would rather be right than president generally have a hunch that they stand a very poor show of ever being president.

A while back we all roared about the tube skirt, and later on the slit therein. Now we roar at the V-cut bodice and bobbed-off skirt. Why should we mere men thus worry? Let them go back to the fig leaf if it so please them. They are all dear and sweet sisters to Venus, anyhow.

According to Senator Johnson the Democratic administration brought about the European war, while Mr. Hearst proves beyond a reasonable doubt that Mexico's tribulations are also due to Wilson. People in high places frequently shoot off more flapdoodle than we common

Man was made to mourn. There is no doubt of it. After reading all the political gush in the dispatches a fellow is confronted with the hard fact that the only way to get out of this world is to go off somewhere and die.

We are told that there are no marriages or giving in marriage in heaven. Said to be a nice place to live in, too.

In prognosticating evil for the administration, our senatorial friends are simply jumping at conclusions, which they should not do. Nobody but a woman is allowed to jump at conclusions—or to jump off a car backward.

General Villa needs a bath, a shave, a tooth-brush and a clean shirt—also a rattling good thrashing.

An inquisitive reader wants to know if we embrace woman's suffrage. Sure! Embrace anything that contains a woman!

And now they have a dance called the fish wiggle. If there is anything else real foolish that some of these dancers can think up they will doubtless do it if given time.

The man in an automobile who tries to beat the express train to the crossing is unwittingly working for the coffin trust.

The election commission of Milwaukee announces that candidates offering voters campaign cigars will be liable for bribery. Pahaw! A campaign cigar is not a bribe—it's an insult!

The highwaymen who held up a Texas passenger train got \$15.65 in money and 137 pint bottles of whiskey from the pockets of passengers. We should think that was a plenty.

A flea is an insect kangaroo about as large as a pin-head to the eye, and a little larger than a well-drilling outfit to the sense of feeling.

A DENTIST DOES NOT FIGHT FAIR

This scribe had occasion to fight several rounds with dentists ever and anon, and we got the worst of it every round. The doctor did not fight fair and no dentist ever does. He pays no attention to Marquis of Huckleberry rules. He clinches a fellow up in a chair with a cumb bit which does not even permit of profanity or any other brand of conversation, and then he uses all kinds of knock-out drops and dope, and comes at a fellow with a boring device of the devil that makes a million revolutions a minute and feels just like a tunneling machine going through a range of mountains. He undertook to kill our nerve in the last round, not realizing what a stupendous job it is to massacre the nerve of an editor, but by getting a Japanese strangle-hold on the nerve he finally succeeded in throwing it to the ground and beating it to death with a club.

And now we are nerveless, and suppose any old delinquent subscriber or politician can come in here and call us a liar or any other old thing. We have been in journalism for quite a while and no man ever made us take water yet, not, at least, in irrigation doses, but there are two things we are afraid of, and will own up to it, and those are a woman and a dentist.

OPTIMISM AND PESSIMISM

Some good writers are holding that there can be too much optimism, too much glad-hand business and too much laughter and cheering. This is quite true, although seldom found. The extremes generally run in the other direction. One can get too much religion and become fanatical, but the fact remains that as a general rule we get too little religion instead of too much. There is nothing in this world better than a good wife, but we should not accumulate half a dozen of them. But for all that, is it not better to have even a trifle too much optimism than to be nursing a grouch all

Cures Effected Bring New Patients

Success of the Sing Herb Specialists Prove Value of Herb Treatments.

It is solely through the remarkable cures made by the Sing Herb Specialists that these specialists are steadily increasing the number of patients treated each month.

In the American mind there is a prejudice against turning to the Orient for healing—due to the wonderful advances made in science and medicine in this country. Yet the Chinese have studied the healing of diseases with herb treatments for centuries, have made equal advances in mastering the art of all kinds. Chinese herb treatments today are accomplishing cures where American methods have failed.

Cures Piles

I was suffering from piles for four or five years and in February, 1918, I submitted to an operation which was not successful, and I have been bothered with them from that time and at last became so bad that I could hardly walk.
I went to Dr. Sing about three weeks ago and took treatments and I now believe I am positively cured.
I can heartily recommend Dr. Sing to anyone suffering from piles.
—O. C. McGuire, 2205 Willow street, Oakland.

Female Trouble Cured

As a result of the cure effected by Mr. McGuire's case the Sing Herb Specialists secured another patient with the following result:
To whom it May Concern:

I am writing this for the benefit of others who are suffering from the same trouble as myself.
I have had bladder and female trouble for over a year and could get no relief. I have doctored with several doctors and have been in the hospital at different times, but I could get no help.
I finally heard of Dr. Sing through a patient of his who had been cured of piles by Dr. Sing. I went to see him and after taking five weeks of treatments I am nearly cured and continuing the treatments.
—Mrs. N. M. Small, 2205 Willow street, Oakland.

Call or Write

If you are unable to visit our office write full particulars and we will send a free booklet on "The Skill of the Chinese Herbalist." It will be mailed in a plain wrapper.

200 TONS OF S. F. SUGAR IS GRABBED

CHICAGO, Sept. 3.—Two hundred tons of sugar, consigned by a San Francisco firm to J. Aaron, broker at 24 Broadway, New York, was seized under orders of District Attorney Clyne here today.
Clyne said Aaron bought the sugar at \$8.90 per hundred pounds in San Francisco and sold it to a Chicago firm at \$13. Clyne said he will submit the evidence to New York authorities for prosecution under the Lever act.

LABOR AND CAPITAL CONFERENCE SET

WASHINGTON, Sept. 3.—The conference between labor, capital and agricultural interests, called by President Wilson for discussion of the present economic situation, will be held in Washington between October 5 and 10. It was learned today at the White House.

**Service First
Advice Second
Sales Third**

There's our policy in a nutshell.

First—When the customer comes in, find out what HE wants. Give him satisfaction at the lowest charge consistent with a good, thorough job.

Second—Tell him how to prevent battery trouble. We're not anxious to repair his battery, except to make it last longer.

Third—When he really needs a new battery we want him to buy it from us, naturally, and to buy a Willard with Threaded Rubber Insulation—because that battery will last longer and give him less occasion for giving his battery a second thought.

Come in and find out the wonderful service records of Willard Batteries with Threaded Rubber Insulation.

Adds years to the life of your car

Correct lubrication with Zerolene means better performance and longer life for your car.
By exhaustive study and actual tests the Standard Oil Company Board of Lubrication Engineers has determined the correct consistency of Zerolene for your make of automobile. Their recommendations are available for you in the Zerolene Correct Lubrication Charts. There is a chart for each make of car.

Zerolene is correctly refined from selected California crude oil. It keeps its lubricating body at cylinder heat, holds compression, gives perfect protection to the moving parts and deposits least carbon. It is the product of the combined resources, experience and equipment of the Standard Oil Company.

Get a Correct Lubrication Chart for your car. At your dealer's or our nearest station.

Local Laconics of Richmondites

W. A. Quinly has returned from Modesto, where he has been visiting relatives for the last week, and with his wife and daughter will spend the remainder of his vacation in San Jose and Santa Cruz, their old home town.

Mr. and Mrs. Dave Ruelein returned from their honeymoon, passed motoring to resorts in the southern part of the State.

V. Reed, photographer, accompanied the parade with Secretary Daniels and party last evening and got some fine views of the party and the Richmond waterfronts. He is now developing them and anyone wanting one or more can get them. His studio is opposite the News office.

Do not overlook that fine big dance to be given by the Bolshoi-makers Saturday evening at East Shore park. They expect between 400 and 500 people to participate, and it is going to be a rouser of a dance.

M. Emanuel, president of the Ellis Landing and Dock Company, with the party of distinguished gentlemen mentioned in this paper yesterday, arrived on time at noon yesterday and went over the site of the new San Francisco-Richmond ferry. They are all enthusiastic over the project, which may now be set down as an assured fact.

We are all very glad of this big move for Richmond's interest, and grateful to Mr. Emanuel for starting it.

Clinton G. Smith returned last Saturday from overseas, and his good little wife is mighty glad, of course, as is the husband, also. They took a trip to Santa Cruz over Labor Day, and yesterday Smith received his discharge. He was formerly employed at Standard Oil.

Frank Gugich, of 202 Enterprise avenue, was arrested yesterday on the complaint of John Weel of 207 Enterprise avenue, on the charge of using threatening and profane language.

Richmond people who attended the big naval parade in honor of the Pacific Fleet in San Francisco were proud of the big showing made by the members of Richmond Post No. 10, American Legion. The turnout of former soldiers, sailors and marines was the largest of any post in the three-mile parade.

A meeting of the program committee of the Richmond club will meet at the home of Mrs. H. A. Stiver, the president, this evening and the year's program of the club will be arranged.

Mrs. Grant Mason of 329 Sixth street, is expecting her son, Lee Mason, home from Camp Mason today. He has been in France for over a year with the 319th Engineers.

Remains of Louis Albertis, ferry deckhand drowned in the bay near Richmond, have been sent by the Wilson & Donnelly undertaking parlors to San Rafael for interment.

Raymond Shrader, who has been two years in the service of the government in the navy, came in with the New Mexico, the flagship of the fleet, and is spending all the time he can get off visiting his father, L. H. Shrader.

Riding Habits Trim and Flattering

The time has come to frankly glory in perfect health and vigor, for the up-to-date girl cannot be a good sports-woman without them. And the healthy woman who is fond of sports is an agreeable person to have about. She has interests that will keep her young, charms that will last and activities that will prevent her from getting disastrously fat. Costumers see to it that she is clad becomingly for whatever sports she elects to follow, and they have made the riding habit, of all sports clothes, the trimmest and the most flattering.

There are some special habits for summer wear that are worn by enthusiastic horsewomen, who are devoted to this sport all the year round. They are made of heavy cotton basket weaves and whipcords, and are patterned after the habits of wool. White chips silk blouses are worn with them and top boots in black or brown leather.

A very chic outfit is made up of cotton whipcord breeches, china silk blouse and sleeveless coat of black or dark blue serge. The combination looks as crisp and cool as snow.

One of the smart new habits of cover cloth is shown above. It is the offering of an experienced and enthusiastic designer, and is an example of beautiful tailoring in the best of cloths. The breeches are re-enforced with inserts of leather at the knee, the coat has a little less flare below the waistline than last year's models, and is more straight-hanging. This makes an opportunity for a belt of the cloth. It fastens with a button and button-hole at the front, and the coat also buttons at the waistline, leaving more of the blouse and the visible than is usual.

Puttees, over trim brown walking shoes, are a left-over wartime style which young women are loath to part with, and a pretty, three-cornered hat, with square crown and rolling brim, is so convincingly becoming that it puts the good taste of this outfit above question.

Julia Bottomley
A failure is but the slipping of a wheel. Give it sand, and go on.

A Splendid Show At The Richmond

William S. Hart's new Artcraft photoplay, "Breed of Men," is a remarkable one in every respect and it is attracting large audiences to the Richmond theater today. The story is full of incident and human nature. It has as well a delightful love element and plenty of the wild riding that has made the Hart pictures so attractive to those who like action. Seena Owen is the leading woman. She was seen with Mr. Hart in "Branding Broadway," his recent Artcraft success.

The Refinery team, as a whole, was too much for the Bolter Shop boys. The latter's infield had an off day and as a consequence their pitcher was not given very good support. But they promise to do better next time—if there is a next time.

The score stood 6 to 2 in favor of the Refinery.

The Heart Day Prize Winners

Little Victor Ludewig, son of Otto R. Ludewig, was the winner of the first prize for the boys in the "Have a Heart" Day sale on Saturday. Victor sold \$14 worth of hearts and received a \$5 war saving stamp, given by the Mechanics' Bank as first prize for boys.

Margaret Dowling of 428 Golden Gate avenue, was the winner of the girls' first prize, a \$5 war saving stamp from the First National Bank. Margaret sold \$13.07 worth of the hearts.

The other girl winners of prizes were: Jeannette Teese, \$9.50; Ila Sewall, \$8.82; Naomi Mahome, \$8.40; Violet Vickery, \$7.15; Thelma Newman, \$6.57. Other boy winners were Alfred Freitas, \$5.60; Charles Cecil, \$4.16; Clarence Gason, \$3.75; Bert Childs, \$3.10.

Will Be Charged With Manslaughter

Funeral services are to be held tomorrow morning in Oakland for J. J. Roberts, Stege dairyman, who died following injuries received when his delivery truck was struck by an automobile driven by H. J. Brown of Oakland. The funeral will be in charge of the Wilson & Donnelly undertaking parlors.

No inquest will be held for several days until Mrs. Roberts, mother of the victim, has recovered from injuries which have confined her at the Craven hospital since the accident. Brown, driver of the automobile, is out on \$50 bail on a charge of driving without a license.

It is probable that the charge will be changed to manslaughter.

A prize wheel party is to be given by the ladies of the church of Our Lady of Mercy at the church hall at Point Richmond, on Saturday night, September 6th.

Hercules Woman Passes To Beyond

Mrs. Rhoda Ames Crenshaw, wife of L. J. Crenshaw, died Tuesday at an Oakland hospital after illness of fourteen weeks. She was a native of Jacksonville, Oregon. She is survived by her husband and children, William Crenshaw, Washington; George Crenshaw, Oakland, and Mrs. Minnie Cullen, Hercules.

The funeral will be conducted by Undertaker Bert Curry from the Cullen home in Hercules, Friday afternoon, at 2 o'clock, with interment in Sunset View cemetery.

Meet me at Beyers. 46tf

The local postoffice has recently taken delivery of a light Briscoe truck for carrying its parcel post.

Mrs. Marianna Roberts who was injured on the San Pablo highway Sunday when her son was killed as a touring car crashed into their Ford truck from the rear, is resting nicely at the Craven hospital.

Mayor James N. Long and wife, with Mr. and Mrs. B. P. Swearingen, returned Sunday evening from a two weeks' auto trip through the Russian and Eel river valleys.

[Number Thirty-three of a Series.]

the Alvarado Wells --- a friend indeed

Last summer, when the unprecedented demands of the war industries and the dry season brought the problems of a possible water shortage before us, and most cities in the State, the wells at Alvarado and other points proved a friend indeed.

These wells, regarded as our auxiliary or emergency water supply, actually became our principal source—and most of the water used in the East Bay communities was pumped from them to you.

In the development of the sources of water supply in this arid district, no possible source has been overlooked.

The great San Pablo project will be completed this year. With its completion we will have developed the plant and equipment necessary to gather, catch or pump all the water this district produces, with the exception, of course, of water produced by private wells.

If this company had been negligent in the development of these auxiliary sources of water supply, the conditions of last summer might have become truly alarming.
